Circonix Technologies Announces Partnership with Tulimieri Associates, Inc.

Ringwood, New Jersey, February 2006 – Circonix Technologies LLC, a leading systems integrator in the converting, film and web conveyance industries offers a wide range of engineering and design services dedicated to enhancing and optimizing facilities operations. As part of their expansion and growth, Circonix Technologies welcomes Tulimieri Associates Inc. as their new sales representative in the North East.

Tulimieri Associates Inc. (TAI) has been in the electrical and electronic product representation and support industry for more than 25 years. With their corporate office is located in Glastonbury, CT and a regional office is in Marlborough, MA, TAI offers varied services and full product support throughout their territory, which encompasses New England, Southern New York, Northern New Jersey, metropolitan New York and Long Island.

As a manufacturer's representative, with a distinguished list of principals, Tulimieri has the ability to provide clients with integrated solutions that will accelerate the distribution process. Their principals are leading suppliers in their respective fields, with a longstanding history that reflects their ability to adapt new innovative processes. TAI maintains an active role in the National Electrical Manufacturers Representatives Association (NEMRA).

"TAI has the expertise to address modification issues including fabrication, custom control assemblies, field service, and technical support at a local level in. Additionally, TAI also offers support for on-site startups, training, 24-hour field service and temporary manpower. We value the skill and expertise that Tulimieri has to offer, and will rely upon our partnership to provide the skill and services our clients expect, as Circonix Technologies continues to grow." Mike Murphy, Vice President of Sales and Marketing, Circonix Technologies.
